## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment was received on 10/6/06 and has been entered and made of record. Currently, claims 1-8, 10-13, and 63-74 are pending.

### ***Claim Rejections - 35 USC § 101***

2. Applicant's amendment to claim 63 overcomes the rejection directed to non-statutory subject matter as cited in the previous Office Action. Therefore the rejection has been withdrawn.

### ***Allowable Subject Matter***

1. Claims 1-8, 10-13, and 63-74 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, teach, or suggest the claimed limitations of (in combination with all other limitations in the claims), providing a user interface that allows a user to individually specify page alignment, offset, and scaling settings for each of the slots and individually adjusting the page alignment, offset and

scaling of each of the pages based on the user specifications, as set forth in claims 1 and 63.

The closest prior art, previously noted as Warmus et al. (US 6205452), discloses providing a representation of a printable sheet, dividing said printable sheet representation into slots, each slot adapted to receive a printable page, and assigning a printable page to each slot. However, Warmus fails to disclose providing a user interface that allows a user to individually specify page alignment, offset, and scaling settings for each of the slots and individually adjusting the page alignment, offset and scaling of each of the pages based on the user specifications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
